

HCG Dosage Instructions

After following Mixing Instructions (dilution) fill small insulin syringe to the 17 mark (0.17ml). Inject once daily. Morning is the best time for HCG Injection.

For Best Results: Use HCG for 28 days on and 28 days off. This way the body maximizes the benefit of the HCG. You can continue with a 1200 calorie high protein low carb diet for the 28 days off.

Please read all instructions carefully.
